The MATERIALS RESEARCH SOCIETY® invites you to attend the 2015 MRS Spring Meeting, which will be held from April 6-10 at the Moscone West Convention Center, and the San Francisco Marriott Marquis and Park Central Hotels in San Francisco, California.

The Materials Research Society (MRS) was established in 1973 by a visionary group of scientists who shared the belief that their professional interests were broader in scope than existing single-discipline societies and that a new interdisciplinary organization was needed. Today MRS is a growing, vibrant member-driven organization of over 16,000 materials researchers from academia, industry, and government, and a recognized leader in the advancement of interdisciplinary materials research. Headquartered in Warrendale, Pennsylvania (USA), MRS membership now spans over 80 countries.

The MRS Spring Meeting attracts nearly 6,000 attendees. For more information on the Materials Research Society, please check the MRS Web site at www.mrs.org. We look forward to working with you at the 2015 Spring Meeting and trust it will prove to be a scientifically stimulating experience.

Sincerely,

Diane Rosenbaum, Meetings Manager
Materials Research Society
